## UVClean Mini Sanitizer™

**3W Model: PP13B**

*Please read instructions carefully before using and keep instructions for reference before each use.*

People live, work, travel, and play in precariously unsanitary places every day. Transform any questionable space into a germ-free safe haven in 15 minutes. UVClean Mini Sanitizer™ utilizes ultraviolet light to irradiate surface areas and purify air within a 5-foot radius, effortlessly and effectively.

The Mini provides “on the go” clean living convenience. Its compact design emits 254nm UVC light to sanitize office cubicles, cars, hotel rooms, bathroom stalls, refrigerators, storage lockers, kid’s party rentals, and all areas up to 32-square feet.

## Sanitation Guide

1. Press and hold the “Start” for 3 seconds to activate a 15-minute cleaning cycle. The LED indicator Flashes 10 times and the UV Lamp activates. Upon completion of the cycle, the power automatically deactivates.
2. Short press the “Start” 3 times in succession to activate a 5-minute cleaning cycle. The LED indicator Flashes 10 times and the UV Lamp activates. Upon completion of the cycle, the power automatically deactivates.
